

## Mandatory KSeF postponed!

• 19 JANUARY 2024 •

On January 19, 2024, the Ministry of Finance announced that the implementation of The National System of e-Invoices (Krajowy System e-Faktur, KSeF) will be postponed due to the detection of critical errors in the system code.

The Minister of Finance emphasized that the stability and security of economic activities in Poland constitute a priority and cannot be jeopardized by the introduction of KSeF. Consequently, **a new implementation date will be determined following a thorough external audit of the system.**

**It is now confirmed that the KSeF system will not be introduced on July 1, 2024, nor is it likely to be implemented at any other time in the year 2024.** In the coming period, intensive consultations with entrepreneurs are planned to better understand their needs and expectations regarding the system.

**The Ministry of Finance simultaneously underscored that KSeF is essential and will be introduced as soon as possible.**

The Ministry of Finance is committed to implementing KSeF in Poland, emphasizing its significance in facilitating business operations. However, the priority is to ensure that the system operates flawlessly from the day of its launch.

We will keep you informed of any updates and new determinations regarding the implementation schedule of KSeF and any potential changes to the system's operation. If you require any support related to fulfilling obligations associated with the implementation of KSeF, please contact our experts.
